28 2017-09-05 20:04:41 1118 InnoDB: Warning: Using innodb additional mem pool size is DEPRECATED. This option may be removed in future releases, together with the
option innodb_use_sys_malloc and with the InnoDB's internal memory allocator.
29 2017-09-05 20:04:41 4376 [Note] InnoDB: innodb_empty_free_list_algorithm has been changed to legacy because of small buffer pool size. In order to use backoff,
increase buffer pool at least up to 20MB.

48 2017-09-05 20:04:17 4168 [ERROR] Incorrect definition of table mysql.column_stats: expected column 'min_value' at position 3 to have type varbinary(255), found
type varchar(255).
```

Maksud dari event yang pertama yaitu peringatan bahwa Menggunakan innodb_additional_mem_pool_size DEPRECATED. Pilihan ini dapat dihapus di rilis mendatang, bersama dengan pilihan innodb_use_sys_malloc dan dengan pengalokasi memori internal InnoDB.

Maksud dari event yang kedua yaitu definisi pada tabel mysql.column_stats salah: kolom yang diharapkan 'min_value' pada posisi 3 memiliki tipe varbinary (255), ditemukan tipe varchar (255).
